RITIK GUPTA

FULL STACK DEVELOPER

+919643943996

https://portfolioritik.netlify.app/

Results-driven Full-Stack Developer with 3 years of experience in building scalable, high-performance web applications using MERN stack (MongoDB, Express.js, React.js, Node.js), Next.js, and TypeScript. Proven expertise in UI/UX optimization, RESTful APIs, cloud-based architectures, and performancedriven development.

Despite not having a BTech degree, I have successfully designed and deployed enterprise-grade applications, exceeding industry standards. Skilled in AWS, Docker, CI/CD, microservices, and database management (MongoDB, MySQL). Passionate about clean code, problem-solving, and Agile methodologies.

Additionally, I provide career guidance and mentorship to BTech and BCA students, helping them enhance their skills and secure opportunities in the tech industry.

(A)

SKILLS

PROGRAMMING:

HTML | CSS | JavaScript (JS) | TypeScript (TS) | React JS | Node JS | Next JS | MongoDB | MySQL

PLATFORM AND TOOLS:

Git | Docker | Heroku | Firebase | Jira | Figma | GitHub | Bitbucket

DEVOPS & CI/CD & DEPLOYMENT:

AWS | Nginx & Apache | Microsoft Azure | GoCD | Azure DevOps Pipelines

SOFT SKILLS

Teamwork | Problem Solving | Communication | Creativity Time Management | Work Ethic

🗎 WORK EXPERIENCE

Spraxa Solutions Pvt Ltd

(Software Developer Engineer)

Jan. 2023 - Present

Project 1: Ready Tracker (Steris Corporation - Healthcare & Hospitality Domain)

- Led a cross-functional development team, ensuring seamless collaboration and timely project execution.
- Liaised directly with clients and stakeholders, translating business requirements into scalable, high-impact solutions.
- Architected and implemented RT Announcement, a React.js & Node.js-based internal module for broadcasting critical announcements and dynamically restricting access to the Ready Tracker platform.
- Optimized system reliability and security, ensuring smooth platform operations for Steris Corporation's hospitality division.

Project 2: Volza.com (Next.js)

- Developed and optimized Volza.com, a data-driven B2B platform, using Next.js for a seamless and high-performance user experience.
- Enhanced platform stability by identifying and resolving critical UI/UX and functionality bugs.
- Redesigned and developed an intuitive, high-performance home page UI to improve user engagement and accessibility.
- Leveraged Locofy AI to accelerate the development of static pages, optimizing design-to-code efficiency.

Brand and Beyond OPC

(Full Stack Devlopment)

March. 2022 - December. 2022

Project 1: NoCode Application

- Developed a no-code platform that enabled users to build Flutter apps without writing code.
- Built and optimized a React-based UI for seamless drag-and-drop app creation.
- Designed and implemented Node.js APIs to handle dynamic application logic.
- Managed MongoDB databases for storing app configurations and user data.
- Focused on scalability and performance to support a wide range of user-created applications.

EDUCATION

Master of Computer Applications

Chandigarh University (CU)

online learning, 2024-Present

Full-Stack Web Development Course

Masai School

Bengaluru, May 2021-Feb 2022
